EXPERIENCE

Worship & Creative Arts Pastor

Meridian Point Church / Peyton, CO / 2006-Current

I was brought to Colorado to cast vision and help start the church in 2006. I developed this ministry from the ground up equipping and leading a team to serve and produce all aspects of the Sunday worship services. As ministry expanded and communication needs increased, I took initiative to develop skills in graphic design, production, and digital and print publications to help the church communicate effectively to church members, attenders, and the community. I designed and manage the church website(s) and app to increase online presence and weekly church engagement. Years in ministry has further developed pastoral skills to counsel, teach, manage, budget, set goals, cast vision, implementation, administration, leadership, assimilation, and leadership training. I've also played a role in planting our sister church and currently resource and oversee their worship department and publication needs. I have also expanded the worship ministry aimed at helping people discover their spiritual gifts, combine them with their personality and passion, and then find their unique place of service and belonging in the church.
